

## **A hall make-over in 2020!**

- No pursuit of the Acorn *replacement* project in 2019
  - Available people resources (time not skills)
  - Other committee priorities
- Still some major committee work to be undertaken in 2020 eg Charitable Incorporated Trust status
- However we have pursued some of the *short-term wins* recommended by the Acorn Feasibility report and as endorsed at last year's AGM
  - exploration of improved audio / visual equipment
  - exploration of improved acoustics
  - improved fire safety
- We have resolved to allocate some of the SBAG funds donated over the last few years towards a 'make-over' program in 2020 which aims to
  - redecorate and improve the look and feel of the hall interior
  - replace the current art work / wall displays with something more contemporary, more harmonised with the village context (location, history, character etc) - possibly, in part, through some form of community competition
  - consolidate the work done around possible improvements to hall acoustics
  - possibly a more permanent home for the Pop Up Pub
  - more comfortable seating for smaller group events
- The above are outline ideas at this stage but are entirely consistent with the Acorn feasibility recommendations
- A plan will be created in the New Year
- We anticipate a budget c£2000-£3000
- We would like to know your thoughts and gather names of people who would like to be involved
